

# WESTBURY GROUP PRACTICE

---

## Declaration of GP Earnings – 2024 - 2025

All GP practices are required to declare the mean earnings (e.g. average pay) for GPs working to deliver NHS services to patients at each practice.

The average pay for GP's working in Westbury Group Practice during financial year 2024-2025, was £119,250 before tax and national insurance. This is for 1 full time GP, 9 part time GPs and 4 locum GPs who worked in the practice for more than 6 months."

NHS England require that the net earnings of doctors engaged in the practice are publicised, and the required disclosure is shown above. However, it should be noted that the prescribed method for calculating earnings is potentially misleading because it takes no account of how much time doctors spend working in the practice and should not be used to form any judgement about GP earnings, nor to make any comparison with any other practice.
